 Taxi fee

 Breakfast

United with **Responsible** Tourism

For each reservation, we donate a percentage to Torres del Paine Legacy Fund, an NGO destined to help reforest and conserve Torres del Paine National Park.

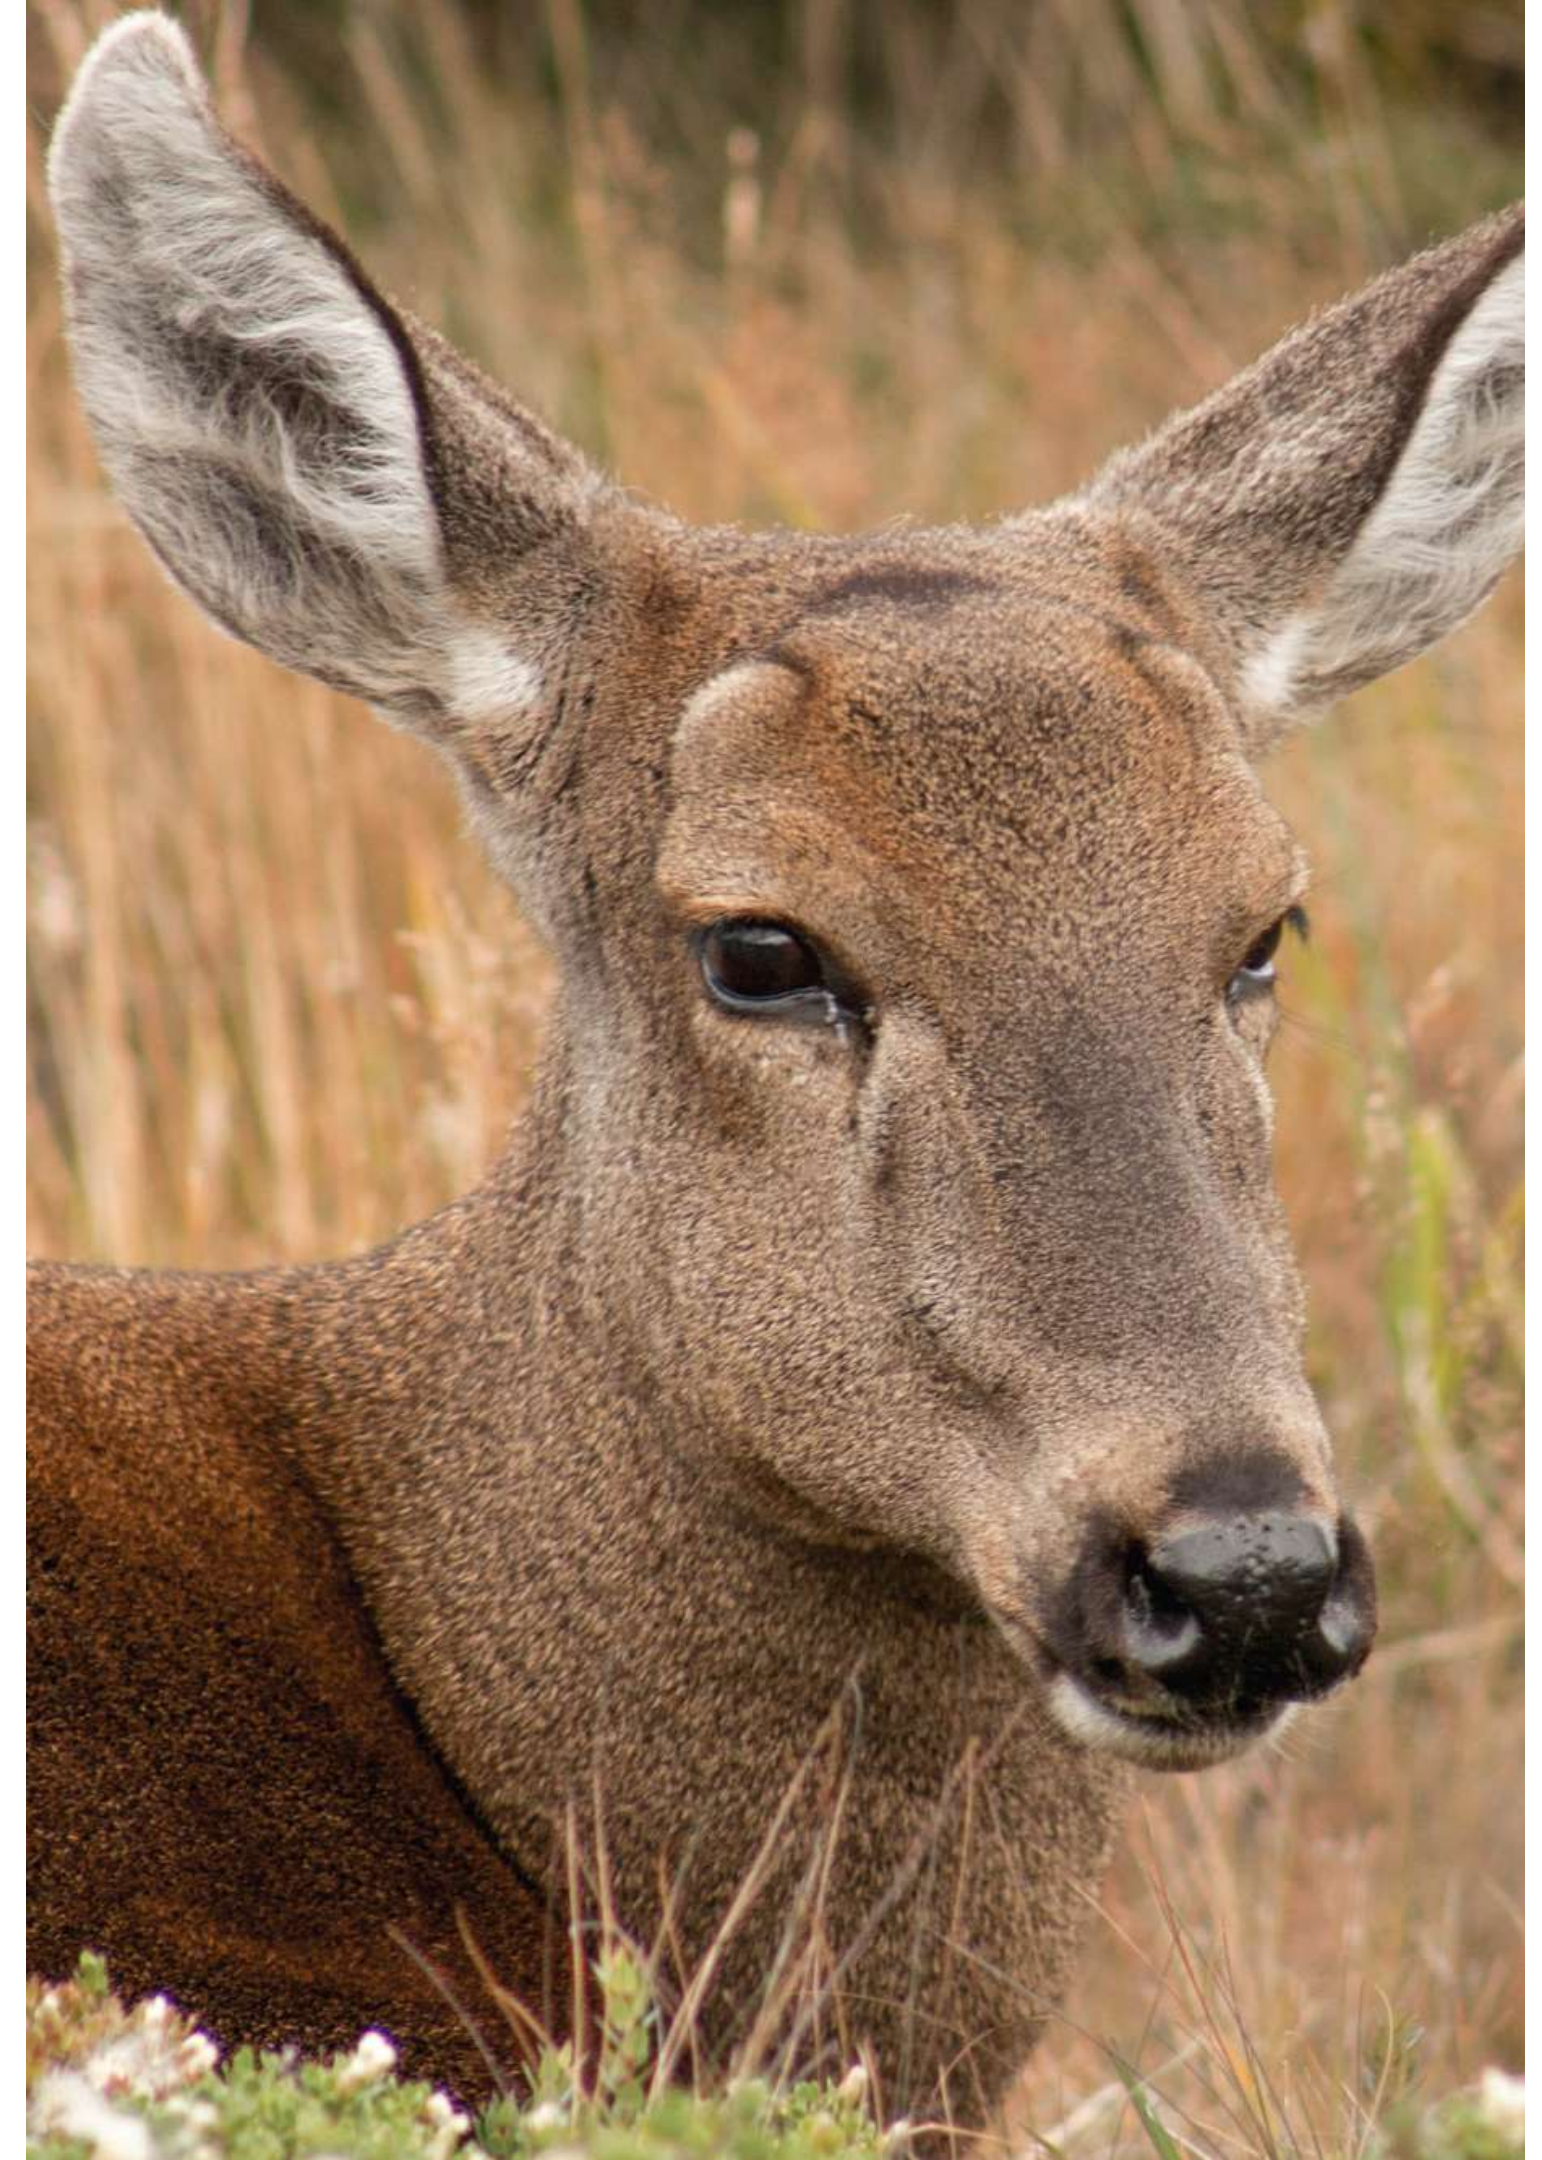

During the biggest forest fire in the history of the park in 2011, around 16,000 hectares of land were wiped out along with its unique flora and fauna. Our commitment is to give a hand back and help these affected areas and bring back a balanced environment.

Torres del Paine Legacy Fund uses its resources to reforest burnt areas with Lenga trees (high-deciduous beech trees), creates boardwalks in damp areas, and helps to monitor and study our endangered Huemul (south-andean deer) inside the national park.

When reserving with us, not only do you book a trip of a lifetime, but also, you help keep Torres del Paine National Park shining as the Eighth Wonder of the World.
